## **KNOCKNINNY SUNDAY NEWSLETTER**

**23<sup>rd</sup> September 2018**

**Twenty-fifth Sunday in Ordinary Time**

### **Reflection**

‘At times we see an obsession with denying any pre-eminence to the human person; more zeal is shown in protecting other species than in defending the dignity which all human beings share in equal measure ... It is clearly inconsistent to combat trafficking in endangered species while remaining completely indifferent to human trafficking, unconcerned about the poor, or undertaking to destroy another human being deemed unwanted ... Concern for the environment thus needs to be joined to a sincere love for our fellow human beings and an unwavering commitment to resolving the problems of society.’ Pope Francis, *Laudato Si*’

### **How to welcome the child**

In today’s gospel Jesus is presented as the courageous leader, instructing those who will follow on from him and carry on his work for future generations. He sat down, called the twelve, and said to them, ‘Whoever wants to be first must be last of all and servant of all.’ Then he took a little child and said to them, ‘Whoever welcomes one such child in my name welcomes me, and whoever welcomes me welcomes not me but the one who sent me.’ This September we are celebrating the Season of Creation. Pope Francis challenges us to reflect: ‘What kind of world do we want to leave to those who come after us, to children who are now growing up?’ (*Laudato Si*’, 160). In the context of today’s gospel we might ask: how are we welcoming generations to come? Pope Francis urges us to remember that the goods of the earth are not meant to be exploited and states, ‘Doomsday predictions can no longer be met with irony or disdain. We may well be leaving to coming generations debris, desolation and filth.’ During this creation time let us reconnect once more with nature and restore our relationship with the environment. As parish communities we must play our part in ensuring that our world is liveable for generations to come.

‘Climate change is a global problem with grave implications: environmental, social, economic, political and for the distribution of goods. It represents one of the principal challenges facing humanity in our day.’ Pope Francis, *Laudato Si*’

### **AFFIRMATION OF FAITH**

We believe that God creates all things, renews all things, and celebrates all things.

We believe that Earth is a sanctuary, a sacred planet filled with God’s presence, a home for us to share with our kin.

We believe that God became flesh and blood, became a part of Earth, a human being called Jesus, who lived and breathed and spoke among us, suffered and died on a cross, for all human beings and for all creation.

We believe that the risen Jesus is the Christ at the core of creation reconciling all things to God, renewing all creation, and filling the cosmos.

We believe that the Spirit renews life in creation, groans in empathy with a suffering creation, and waits with us for the rebirth of creation.

We believe that with Christ we will rise and with Christ we will celebrate a new creation. Amen
